

SHP Shaped Diffusers

...are designed to integrate with Armstrong® Design Flex™ Shapes Ceiling Systems. These extruded aluminum triangular and parallelogram diffusers offer superior architectural design and engineered performance. The partnership between Armstrong Ceilings and Price Industries combines architectural and engineering expertise to provide a unique blend of aesthetics and occupant comfort.

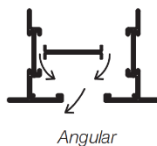

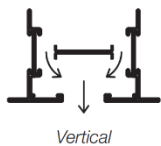

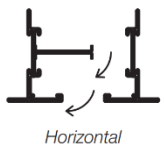

The SHP is available with top or side plenum inlet locations and lay-in or Tegular frame styles to ease the installation process in a variety of applications.

SHP Diffusers feature a 1 in. discharge slot with dual layer pattern controllers that can be field adjusted from the diffuser face.
